

# When will I get my jab

by mid-April 2021 and you will be contacted when it is your turn.

## How to get your jab

If you are aged **16 to 65** and have an **underlying health condition** (such as severe asthma, diabetes or lung disease), or you are on the **Learning Disability Register** you will be contacted to have your jab by your GP led vaccination service.

For everyone else, there are two ways to get your vaccination **when you are invited**. You can book your jab online at [www.nhs.uk/covid-vaccination](http://www.nhs.uk/covid-vaccination) or by calling **119** free of charge, or you will be contacted by your GP led vaccination service.

## Priority groups 1 to 4

We have now offered the vaccination to everyone who:

- lives in care homes and care home staff
- is extremely clinically vulnerable
- is aged 70 or over
- is health and social care staff

More than 90% of people aged 70 and over in Sussex have received their first dose of the vaccination.

## How to get your jab

If you're in any of the first four priority groups and haven't had your jab, please book online at [www.nhs.uk/covid-vaccination](http://www.nhs.uk/covid-vaccination), call **119** free of charge, or contact your GP led service.

## Priority groups 5 to 9

We are now working through the remaining priority groups in turn, which cover people who are:

- aged 60 and over
- on the GP Learning Disability Register
- 16 to 65 with an underlying health condition
- eligible carers
- 55 years and over
- 50 years and over

If you are in one of these groups, we are aiming to vaccinate you

## All other adults

The national and local target is to offer a vaccination to all adults by the end of July 2021.
